## Pandora Immo

Advanced anti-theft system for vehicles. The system is convenient, reliable and easy to install.

You can use your Android/Apple smartphone to adjust any settings via Bluetooth. Immo has the smallest RF TAG among similar systems and the highest energy efficiency.

**Pandora Immo** has the smallest RF TAG among similar systems and the highest energy efficiency.

179.00 €

## Pandora Light v3

A complete security system, **suitable for protecting and remotely starting your car**. The remote control has an OLED display and communicates with the base unit via an encrypted connection, thus allowing it to be updated and configured securely. Despite its small size, it has a powerful 868 MHz antenna making it capable of **reaching great communicational ranges**. It can be installed on CAN-bus and analogue cars.

289.00 €

## Pandora Light Pro v2

**Pandora Light Pro v2** (with GPS) is the ultimate protection solution for your car as it's combined with the factory controller and gives you the ability to control everything from your Smartphone.

It's packed with all the benefits of Pandora's sophisticated car alarm systems and offers (additionally) remote engine start functionality (which is really cool!).

415.00 €

## Pandora Primo

The only alarm system in its class that combines the most modern anti-theft technologies.

Made with the smallest dimensions for completely hidden installation, driver identification, theft protection from Relay attack and Anti Jammer protection.

It works with the car's factory key and is fully compatible with all of them.

309.00 €

# Pandora Car Products

## Pandora Smart GSM No Tags

**Pandora Smart GSM Alarm** is the ultimate protection solution. It's operated by the factory remote control and a Smartphone application. It offers all the benefits of Pandora's sophisticated systems, and accepts (optionally) a GPS module extension!

**339.00 €**

## Pandora Smart v3

**Pandora Smart v3** (with GPS) is the ultimate protection solution for your car as it's combined with the factory controller and gives you the ability to control everything from your Smartphone. It's packed with all the benefits of Pandora's sophisticated car alarm systems and offers (additionally) remote engine start functionality (which is really cool!).

**519.00 €**

## Pandora Smart Pro v3

Equipped with all modern technologies and renewed/new features, necessary for their installation in the most advanced car models, thus meeting the increased needs and at the same time taking advantage of the possibilities created by modern mobile telecommunications. It operates via an online website, tablets and smartphones, providing the owner with full information and management, while it is ready to add the remote start function.

**669.00 €**

## Pandora Professional v3

Featuring the most advanced software and hardware solutions, is easy to hide anywhere with a minimum number of connection points and large number of inputs and outputs for implementation of additional services. We have combined a 4G (LTE) modem, a GPS/Glonass receiver, a BT 5.0 modem and a 868 MHz LoRa radio interface with an ultra-long range in an ultra-compact body.

**939.00 €**

# Pandora Camper Products

## Pandora Camper

**Pandora Camper** is specially designed to protect your caravan. The system provides reliable cabin security due to an optimal array of dedicated digital sensors, motion, tilt, opening and an innovative intruder radar.

899.00 €

## Pandora Camper Pro v2

**Pandora Camper Pro v2** is specifically designed with innovative wireless sensors, built-in ultra-high-speed **4G(LTE) GSM modem** and accurate **GPS/ Glonass** receiver, **special algorithms** and **encrypted communication protocols**.

1519.00 €

# Pandora Moto Products

## Pandora Moto Evo

**Pandora Moto EVO** is a leading anti-theft security & telemetry system for motorcycles. It's packed with the most modern technologies: **Canbus** for full integration with the electric-electronic systems of the most advanced motorcycles, a high-speed **4G GSM modem**, an accurate **GNSS satellite tracking receiver** with assisted GPS, a new generation **Bluetooth** interface, **anti-jammer** function and **anti-hijack** modes for maximum protection against violent hijacking and interference!

Pandora engineers further developed the technological excellence of **Moto Evo** with the addition of two new algorithms for more efficient and even lower battery consumption. The first algorithm always checks the voltage, adapting its consumption so that the battery will last longer. The second one is based on time, defined through the Pandora Connect application, after how many days the "Power Save mode" will be activated in order to consume up to 1.5 mA. This situation is useful and effective in case of short or long parking of the motorcycle. In any case, the Anti-theft protection of **Moto Evo** remains active with all standby sensors, even the perimeter one (**Pandora VS-22**).

The new **Smart Moto Evo**, has been upgraded with a 4G modem, for faster data transmission and more effective coverage, while taking into account the motorbike's high speeds in and out of cities. In case of weak 4G connection, the alarm automatically connects to 3G or 2G, extending its coverage even to areas with limited signal. With x10 times faster speeds than 3G, the speed of transferring large amounts of data, is the ultimate Anti-theft system with the fastest telemetry.

With the **ID TAG BT-780** as the driver's ID, your motorcycle's engine is locked when you the owner (with his tag) is out of range. If an intruder manages to get your motorbike's keys, they won't be able to drive it.

**469.00 €**

# Pandora Marine Products

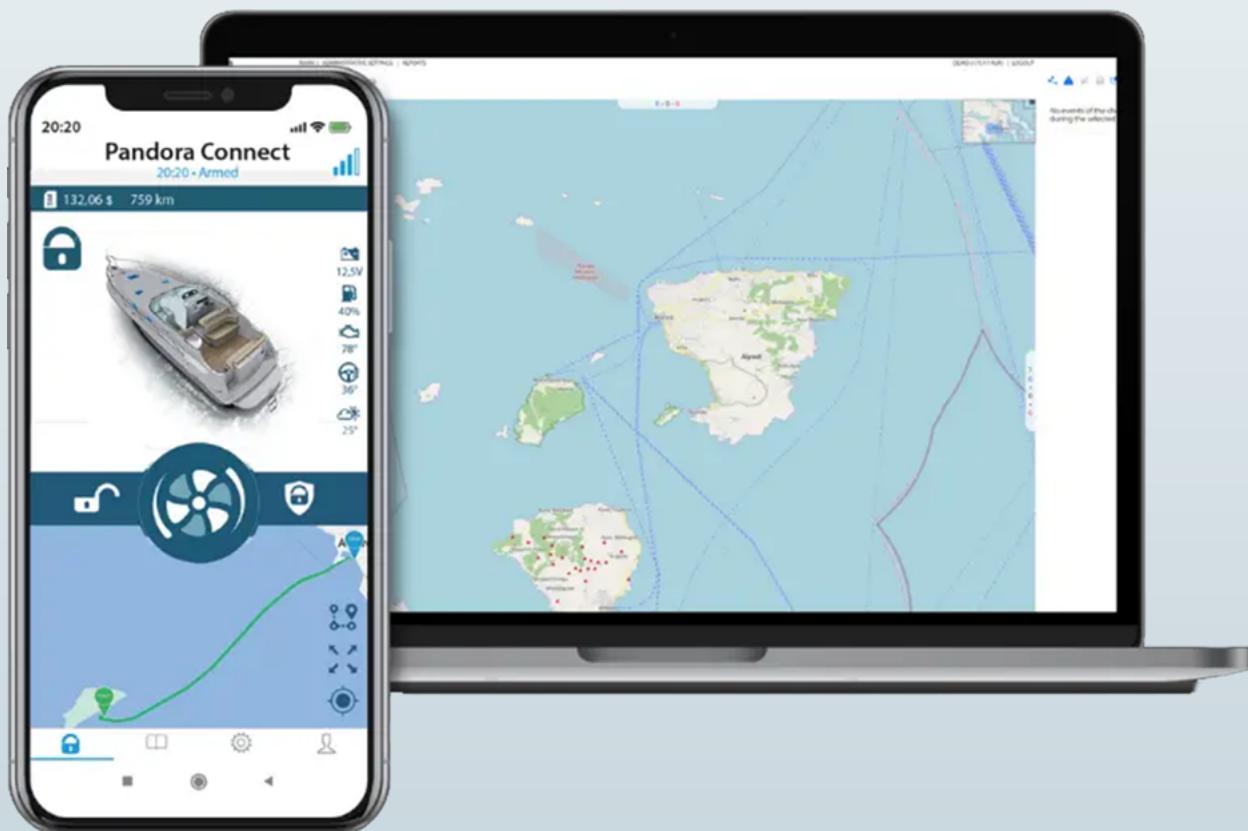

## Pandora Marine

**Pandora Marine** is a leading anti-theft security system for boats. It includes the latest technologies: **GPS Anchor** for full protection and immediate notification in case of a boat being towed away while at anchor.

**Dual mode Protection** allows you to configure the protection zones depending on the status of the boat, high-speed **4G GSM modem**, accurate **GNSS satellite receiver** with **assisted GPS**, **new generation Bluetooth 5.0** interface, as well as **anti-jammer** and **anti-hijack** modes for maximum protection against hijack and interference.

679.00 €

# Pandora GPS Trackers

## Pandora Finder

**Pandora Finder** is a modern and highly effective, untraceable tracking device used to track and record the course of a person or object you wish to protect. Simply place it on your car, motorcycle, truck, bicycle, tractor, suitcase, container, or anything else you want to track.

195.00 €

## Pandora Tracer

**Pandora Tracer** is a modern, highly multifunctional high-tech GPS unit. In fact, it is a complete security system (sensor protection, event, and location monitoring) with fewer inputs and outputs, which makes it a very attractive proposition on the market.

**Pandora Tracer** 4G GPS tracker is suitable for both private individuals and commercial businesses/individuals that wish to control vehicle movement routes, perform fleet management, and much more!

249.00 €

# Pandora Accessories

## Pandora ALT-205 Tester

Multifunctional auto electrician's device that was designed for modern car electrics. Pandora ALT-205 design and circuitry are produced to exclude a risk of damage to the car electrics when diagnosing and searching for the required signal circuits. Ergonomic body of the device allows to easily find needed signals in actual auto electrician working conditions, during installation of service-security systems and additional devices.

**Price only for merchants**

## Pandora CHARGER 2 Battery Charger

Designed for the modern car batteries, with new intelligent automation and a long-lasting power of 750 W (50 A), for fast charging of any type of battery. An advanced architecture that pushes the limits of energy efficiency to deliver infinite use and unprecedented power.

**Price only for merchants**

## Pandora NAV-X Telemetric Module

Designed to expand the service functions of Pandora systems with Bluetooth interface. The integrated interfaces adds control over a system using a phone, voice and SMS notifications storing events history on a remote server. It receives current location and tracking of a vehicle, automatic date and time synchronization, uses protected Bluetooth 4.2 Low Energy interface. Independent power supply notifies if the power supply of the vehicle is disconnected.

**199.00 €**

## Pandora Bluetooth BT-01 Micro Relay

The Pandora BT-01 wireless Bluetooth micro relay is a very useful, often simply necessary Bluetooth accessory with unique characteristics. The product is designed to work with modern security and service Pandora systems with a Bluetooth interface. Sized 32x16x9 mm, Pandora BT-01 can be easily hidden, woven into car's wiring harnesses, and the fact that no wires go to the base unit makes this device as secretive as possible.

**45.00 €**

## Pandora Bluetooth BT-02 Micro Relay

The Pandora BT-02 is a miniature device with a wide range of functional features for a hidden installation in the engine compartment module, or as a stand-alone device. Sized 34x16x9 mm, it can be easily hidden inside of the vehicle harness. Pandora BT-02 can be used to block the car's radio channel, diagnostic CAN buses, to protect additional keys from writing, low-current blocking of sensors and data buses, control the engine heaters.

**105.00 €**

# Pandora Accessories

## Pandora BTR-101 Blocking Radio Relay

Designed and produced using the latest element base. It communicates with control modules via Bluetooth 4.2 protocols. The device is equipped with a high-sensitivity accelerometer. The relay uses highly reliable motion detection algorithms to block the engine in any attempt to start moving. In the same time, it will allow the engine to work during remote start. Controlled by 2.4 GHz interface of Pandora Immobilisers and wireless security systems.

89.00 €

## Pandora DMS-101BT Wireless Sensor

Pandora DMS-101BT is a new innovation in wireless sensors, both to protect your vehicle by controlling the garage door and other nearby vehicles/objects. Any change in his status activates the Pandora alarm wirelessly, informing you of the violation. The temperature sensor has a sophisticated operating algorithm which allows you to replace the battery (CR123A) no more than once every 3 years.

69.00 €

## Pandora VS-22d Volume Sensor

A compact size digital microwave sensor, herewith it is high-tech and energy efficient with extended dynamic range. The sensor has low power consumption (up to 2.5 mA), high sensitivity (50 adjustment levels) and modern algorithm for protection against false alarm. The sensor sensitivity can be adjusted remotely when it is connected to Pandora systems. The sensitivity can be adjusted by the buttons located on the sensor.

59.00 €

## Pandora NAV-035BT GPS/GLONASS Receiver

High-sensitivity GPS/GLONASS receiver designed to be used with Pandora service-security systems. Pandora NAV receivers have small sizes, low power consumption, high sensitivity, reduced time of coordinate determination and reliable tracking under conditions of a weak or shaded GPS/GLONASS signal. The models differ in 2.4 GHz protocols. It is ideal for Pandora SMART GSM.

79.00 €

## Pandora ZDR GM 52 Backup Battery

Spare battery for car alarm 12V / 2.2Ah.

45.00 €

# Pandora Accessories

## Pandora PS-330

A miniature, waterproof, light siren that can be used both for cars and for motorcycles, easy to be installed thanks to its minimal sizes make. It is perhaps the loudest and energy efficient siren.

**35.00 €**

## Pandora PS-331 BT

**69.00 €**

## Pandora PS-332 BT

**85.00 €**

Two new sirens that wirelessly connects to a main unit via the Bluetooth protocol, therefore without pulling wires from a main unit to an engine compartment. They have a sealed waterproof case and a back-up battery, easy to be installed.

## Pandora PS-333 BT

An ultra-compact, waterproof, light piezo siren. Comparing with the legendary PS-330 at a first glance this novelty product seems to be a toy. But in reality, it has a great potential due to its weight and dimensions with a comparable to a bigger model characteristic. You can easily hide it almost everywhere in the car or motorbike.

**39.00 €**

## Pandora POWERCAB

Cable harness for all Pandora systems for cars.

**19.00 €**

## Pandora Moto EU Harness

Cable harness for all Pandora systems for motorbikes.

**29.00 €**

## Pandora Moto v2 Harness

Cable harness for all Pandora systems for Smart Moto v2 systems.

**39.00 €**

## Pandora LED/VALET 2

Valet button with LED indication for Pandora systems.

**9.00 €**

# Pandora Remote Starters

## Pandora RMD-5M

Relay module for remote engine start. Pandora RMD-5M is a relay module designed to implement automatic and remote engine starts with Pandora car alarm systems. The module has small case that is convenient to place anywhere in a car. RMD-5M provides a possibility to connect to power lines of a car (up to 20A).

**49.00 €**

## Pandora DI-02

Bypass unit for remote start.

**29.00 €**

## Pandora DI-03

Immobilizer bypass device for cars with Keyless key.

**45.00 €**

DI-02 and DI-03 are designed to temporary switch most types of original transponder Immobiliser of modern cars (RFID-system) to provide system operation of automatic and remote engine start. Two antennas are included in the set, which allows the modules to work with the most modern transponder Immobilisers. DI-03 is controlled only by a special code channel and has a 3.3V power supply for cars with Start/Stop button, Keyless and Smart Entry systems.

## Pandora DI-04

A Bluetooth immobilizer bypass meant for the Bluetooth Pandora car alarms – it is used to realize remote start on cars that are not compatible with the Pandora CLONE service.

**79.00 €**

## Pandora RMD-BMW v2

Bypass unit for BMW for E-xx generation remote start.

**279.00 €**

# Pandora Remote Controllers

## Pandora BT-780 Immobilizer Tag

A Bluetooth immobilizer tag for the modern Pandora and Pandect alarm systems (IMMO, MINI, LIGHT PRO, SMART, SMART PRO). The tag is used to identify the car owner: if an attempt is made to start off without this tag, the ignition (and/or) the fuel system are disabled. Pandora BT-780's body is sealed with ultrasound, which makes it much more durable. Replacing the battery has also become a lot easier.

**49.00 €**

## Pandora D-043

Compatible with Pandora Elite, Pandora Smart Pro (with an additional RF-module).

**189.00 €**

## Pandora D-043 CAMPER

Compatible with Pandora Camper Mini (with an additional RF-module), Camper Pro.

**199.00 €**

New remote controllers with an OLED display, three control buttons, a protected 868 MHz radio interface, Bluetooth 4.2 (5.0), a battery and a USB port.

## Pandora D-010

Two-way remote control for Pandora Light v3.

**89.00 €**

## Pandora D-010 MOTO

Two-way remote control for Pandora Moto EU.

**89.00 €**

# Pandora Remote Controllers

## Pandora D-011

Two-way remote control for Pandora Light v2.

89.00 €

## Pandora D-670

Two-way remote control with an OLED display, six control buttons, SOS button, protected 868 MHz radio interface, integrated battery and USB-port. Compatible with Pandora Professional v2.

159.00 €

## Pandora D-022 LoRa

Remote control with OLED display, three control buttons, protected 868 MHz radio interface, battery and USB port. Compatible with Pandora Light Pro.

149.00 €

## Pandora R-468BT

Ergonomic remote control with status LED, beeper and large control buttons.

79.00 €

## Pandora R-387

25.00 €

## Pandora R-389

25.00 €

Remote control with OLED display, three control buttons, protected 868 MHz radio interface, battery and USB port. Compatible with Pandora Light Pro v2.

# Pandora Remote Controllers

## Pandora CV D-010 Cover

Plastic parts of the Pandora D-010 remote control.

19.00 €

## Pandora CV D-043 Cover

Plastic parts of the Pandora D-043 remote control.

29.00 €

## Pandora CV D-022 LoRa Cover

Plastic parts of the Pandora D-022 LoRa remote control.

29.00 €

## Pandora CV BT-760 Cover

Plastic parts of the Pandora BT-760 remote control.

9.00 €

## Pandora LC D-010 Leather Case

Leather case for remote control Pandora D-010.
